BADGER CREEK PS

May has been action packed!!!.

Here's what we have been up to this May.

First week of May we got our hands dirty learning about composting with bubble wrap broccoli, weaving earthworms and paper curl carrots

Week two we focused on our mental health with positive affirmation flowers and hugging heart cards

Week three we went back to the jurassic era with dinosaur egg digs and salt dough fossils.

Week four we commemorated National Sorry Day by learning about cultural colourings and the rainbow serpent, and so much more!

This May has been a-May-zing fun! Make sure to book in so you don't miss out.
